MITOCHONDRIA ARE THE FUTURE OF HEALTH

As a catalyst for mitochondrial research and health innovation, **Countdown For A Cure** convenes leading scientists, institutions, philanthropists, and partners to accelerate progress in one of medicine's most overlooked frontiers. Mitochondrial function is the upstream driver of disease and Atlanta is helping lead the movement.

CFAC advances mitochondrial science through five interconnected funding lenses:

Early Detection
& Precision
Diagnostics

Women's Health
& Hormonal
Longevity

Primary
Mitochondrial
&
Rare Genetic
Disease

Chronic
Disease
& Aging

Advanced
Therapeutics &
Frontier Innovation

ON THE SCENE
Evening of Energy Gala

Brilliance and purpose converged on Feb. 7 as the third annual **Evening of Energy Gala** set the city abuzz with momentum and meaning. Hosted by holistic medicine pioneer **Dr. Taz Bhatia**, this spectacular gathering brought together Atlanta's influential leaders, raising a record-breaking \$1 million for groundbreaking mitochondrial research. Inspiring voices took the stage, including Countdown for a Cure Award recipient **Douglas C. Wallace**, honored speaker **Natalie Yivgi-Ohana** and Powerhouse Award recipient **Sonya Knebel**. Co-chaired by **Jenni Nowak** and **Maggie Awbrey**, it was a historic evening of impact, fueling groundbreaking discoveries that promise to shape the future of health for generations. *—EK*
